The doctor of chiropractic evaluates the patient using standard examination and testing procedures. A chiropractic adjustment involves the application of a quick, precise force directed over a very short distance to a specific vertebra or bone. There are a number of different techniques that may be used to deliver the adjustment, some of which utilize specially designed equipment. Adjustments are usually performed by hand but may also be performed by hand-guided instruments. In addition to adjustments, other treatments used by chiropractors include physical therapy modalities (heat, ice, ultrasound, soft-tissue manipulation), nutritional recommendations and rehabilitative procedures.

Chiropractic treatments are one of the safest interventions available to the public demonstrated through various clinical trials and indirectly reflected by the low malpractice insurance paid by chiropractors. While there are risks involved with treatment, these are seldom great enough to contraindicate care. Referral for further diagnosis or management to a medical physician or other health care provider will be suggested based on history and examination findings.

Listed below are summaries of both common and rare side-effects/complications associated with chiropractic care:

Common [1, 2]

- Reactions most commonly reported are local soreness/discomfort (53%), headaches (12%), tiredness (11%), radiating discomfort (10%), dizziness, the vast majority of which resolve within 48 hours

Rare [3, 4]

- Fractures or joint injuries in isolated cases with underlying physical defects, deformities or pathologies
- Physiotherapy burns due to some therapies
- Disc herniations
- Cauda Equina Syndrome [2] (1 case per 100 million adjustments)
- Compromise of the vertebrobasilar artery (i.e. stroke) (range: 1 case per 400,000 to 1 million cervical spine adjustments [manipulations]). This associated risk is also found with consulting a medical doctor for patients under the age of 45 and is higher for those older than 45 when seeing a medical doctor.

Please indicate to your doctor if you have headache or neck pain that is the worst you have every felt[3]

I understand that there are beneficial effects associated with these treatment procedures including decreased pain, improved mobility and function, and reduced muscle spasm. I also understand that my condition may worsen and referral may be necessary if a course of chiropractic care does not help or improve my condition.

Reasonable alternatives to these procedures have been explained to me including prescription medications, over-the-counter medications, possible surgery, and non-treatment. Listed below are summaries of concern with the associated alternative procedures.

- Long-term use or overuse of medication carries some risk of dependency with the use of pain medication the risk of gastrointestinal bleeding among other risks
- Surgical risks may include unsuccessful outcome, complications such as infection, pain, reactions to anesthesia, and prolonged recovery[5].
- Potential risks of refusing or neglecting care may result in increased pain, restricted motion, increased inflammation, and worsening of my condition[6]

Neck and back pain generally improve in time, however, recurrence is common. Remaining active and positive improve your chances of recovery.

ARBITRATION AGREEMENT

Article 1: Agreement to Arbitrate: It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by California and federal law, and not by a lawsuit or resort to court process except as California and federal law provide for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration. Further, the parties will not have the right to participate as a member of any class of claimants, and there shall be no authority for any dispute to be decided on a class action basis. An arbitration can only decide a dispute between the parties and may not consolidate or join the claims of other persons who have similar claims.

Article 2: All Claims Must be Arbitrated: It is also understood that any dispute that does not relate to medical malpractice, including disputes as to whether or not a dispute is subject to arbitration, as to whether this agreement is unconscionable, and any procedural disputes, will also be determined by submission to binding arbitration. It is the intention of the parties that this agreement bind all parties as to all claims, including claims arising out of or relating to treatment or services provided by the healthcare provider including any heirs or past, present or future spouse(s) of the patient in relation to all claims, including loss of consortium. This agreement is also intended to bind any children of the patient whether born or unborn at the time of the occurrence giving rise to any claim. This agreement is intended to bind the patient and the healthcare provider and/or other licensed healthcare providers, preceptors, or interns who now or in the future treat the patient while employed by, working or associated with or serving as a back-up for the healthcare provider, including those working at the healthcare provider's clinic or office or any other clinic or office whether signatories to this form or not.

All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the healthcare provider, and/or the healthcare provider's associates, association, corporation, partnership, employees, agents and estate, must be arbitrated including, without limitation, claims for loss of consortium, wrongful death, emotional distress, injunctive relief, or punitive damages. This agreement is intended to create an open book account unless and until revoked.

Article 3: Procedures and Applicable Law: A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days, and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days thereafter. The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's equal share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit. Either party shall have the absolute right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder, any existing court action against such additional person or entity shall be stayed pending arbitration. The parties agree that provisions of the California Medical Injury Compensation Reform Act shall apply to disputes within this arbitration agreement, including, but not limited to, sections establishing the right to introduce evidence of any amount payable as a benefit to the patient as allowed by law (Civil Code 3333.1), the limitation on recovery for non-economic losses (Civil Code 3333.2), and the right to have a judgment for future damages conformed to periodic payments (CCP 667.7). The parties further agree that, where not in conflict with this agreement, the Arbitration Rules of ADR Services, Inc. shall govern any arbitration conducted pursuant to this Arbitration Agreement. A copy of the ADR Services rules are available on its website at www.adrservices.com or by calling 213-683-1600 to request a copy of the rules.

Article 4: General Provision: All claims based upon the same incident, transaction, or related circumstances shall be arbitrated in one proceeding. A claim shall be waived and forever barred if (1) on the date notice thereof is received, the claim, if asserted in a civil action, would be barred by the applicable legal statute of limitations, or (2) the claimant fails to pursue the arbitration claim in accordance with the procedures prescribed herein with reasonable diligence.

Article 5: Revocation: This agreement may be revoked by written notice delivered to the healthcare provider within 30 days of signature and, if not revoked, will govern all professional services received by the patient and all other disputes between the parties.

Article 6: Retroactive Effect: If patient intends this agreement to cover services rendered before the date it is signed (for example, emergency treatment), patient should initial here. _____. Effective as of the date of first professional services.

If any provision of this Arbitration Agreement is held invalid or unenforceable, the remaining provisions shall remain in full force and shall not be affected by the invalidity of any other provision. I understand that I have the right to receive a copy of this Arbitration Agreement. By my signature below, I acknowledge that I have received a copy.

NOTICE: BY SIGNING THIS CONTRACT YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.
